SOCIAL SECURITY NUMBER _____

Students are required to provide the University with their correct social security numbers (individual taxpayer identification numbers) pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses and interest on educational loans. That information is used to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes. Students who do not have a social security number at the time of enrollment will be required to obtain a social security number and submit it to the University within 60 days. Failure to furnish a correct social security number may result in the imposition of a penalty by the Internal Revenue Service.
